

ALL THE NEWS OF THE BADGER STATE

A BIG MANUFACTURING ENTERPRISE FOR MARINETTE.

Company Organized with \$600,000 Capital—Workmen at Chippewa Falls Still on a Strike—Beloit Militiamen Will Fight Against Spain—Wisconsin Brevities.

Marinette, Wis., April 15—The A. W. Stevens company was organized here yesterday by local capitalists. The stock is \$600,000. These directors were elected: Isaac Steinhilber, J. A. Vancleve, Leroy W. Stevens, George W. Hanley, M. Corry, Sr., of this city, and Benjamin Zimmerman and John Witbeck, of Chicago. One-half of the capital stock was subscribed here. The new corporation has purchased the factory of A. W. Stevens & Son of Auburn, N. Y., one of the largest of its kind in the world, and it will be moved to this city. It is an extensive institution, employing over 300 hands and manufacturing agricultural machinery. It has been in existence for forty-two years.

Leroy W. Stevens, the head of the old company, will move to Marinette and assume the active management. It is planned to have the institution running here in August next.

The company will be a competitor of the J. I. Case company, the McCormick Reaper Works and other like concerns. The factory will occupy a fifteen acre site and will comprise a machine shop, foundry, boiler shop, wood working, draughting, model and pattern shops. Ultimately 400 men will be employed.

THE CHIPPEWA FALLS STRIKE

Men Still Out and Insist Upon Their Demands

Chippewa Falls, Wis., April 15—The employees of the Chippewa Lumber & Boom company are still out. While they agreed at a secret meeting today to persist in their demand for ten hours labor and ten hours pay, a talk with individual members of the strikers leads to the impression that an invitation from Manager Irvine to the men to go to work would break the present apparent inharmonious and at least half of the large force would accept his invitation.

A mass meeting of citizens and strikers was called by the mill men last night at the opera house. The meeting was well attended and addressed by several citizens. If the mill men win their point the concession will have to come from Mr. Weyerhaeuser.

BELOIT MILITIAMEN PATRIOTIC

Every Man in the Company Will Go to the Front.

Beloit, Wis., April 15—It is not known that the Line City Rifles, Co. E., First Regiment, W. N. G., have formally offered their services in case of war, but that they are ready for service is shown by an incident last night. When the company was assembled for full drill, Captain Rogers asked all who were ready to volunteer to step out of the ranks. There were forty-eight present and instantly every man stepped forward.

The Chicago & Northwestern station at Brillon was robbed Thursday while the agent was at dinner. The burglars gained an entrance to the waiting room, smashed the office window, pried open the money drawers, and got away without being seen. This is the second time the office has been broken into within a month.

When the new mayor of Kaukauna, Charles E. Raugh, took his seat Wednesday evening Ald. H. B. Tanner presented him with a gavel made from an oak tree out by the first settler of Kaukauna, Mr. Ducharme, over 100 years ago.

Dennison Wheelock, of DePere, instructor of the band at the Carlisle school, will be home this spring to hunt up some good musicians to be trained at Carlisle for the Paris exposition.

The Racine council is a tie politically and will have trouble in filling the offices unless a compromise can be made.

The office of Dr. I. D. Wiltrout of Eau Claire, was damaged to the extent of \$2,900 Wednesday by a lamp explosion.

William Kelley, of Oaledonia, was arrested at Racine, Wednesday, on charge of selling diseased meat.

BRIEFS FROM BELOIT

Interest in Base Ball—News Received From Alaskan Gold Fields

Beloit, Wis., April 15—[Special]—A. P. Waterman, of this city, has received the sad news of the death of his cousin's wife at Chicago on the 11th, Mrs. Adaline Waterman. His cousin, S. S. Waterman, and family resided in this city many years.

The Beloit college base ball team meet the Northwestern University in this city this afternoon. Blewett will pitch for Beloit. The next day, Saturday, Beloit will play the Chicago team in Chicago. A great deal of interest is being taken in the game by the Chicago alumni of Beloit, they having reserved 150 seats. A large delegation of rooters will probably go down from here, and all who wish to go can get a rate of a fare and a third on the O. M. & St. Paul railway. Both the games will be exciting, each of the universities having old scores against Beloit.

The Beloit High school team will play their first game in this city Saturday with the Freeport High school team.

Charles E. Jones, of this city, who left Beloit for Alaska in search of gold February 20, was on the top of the White Pass March 31, from which place he wrote to his wife in this city. He said he was working hard to get over before it broke up. The snow is very deep, and it takes a lot of work to get an outfit over. The party had about six tons and could draw about 500 pounds on a sled with a horse.

They were above the clouds some of the time, and could look down and see it snow; and again were in the snow so thick they could not see ten feet. He further says: "In regard to my health, I have stood it all right. You can tell any one who expects to come to Alaska that if they can't climb a mountain as steep as the roof of a house, with two sacks of flour on their back, they had better stay at home."

In previous letters Mr. Jones spoke of reports of rich strikes in the Salmon river, and said his party was pushing on to take out claims on the river.

KILLED BY A BARBER

New York Italian Cuts an Enemy's Throat While Shaving Him.

New York, April 15—[Special]—Luigi Matarello, an Italian barber, murdered Giovanni Lombardi while shaving him, by cutting his throat with a razor, last night. The men had long been enemies.

MAY ASCEND THE TRIPOD.

J. Franklin Willey May Resume Control of the Tobacco Leaf.

It is a well established fact that Janesville is one of the leading tobacco markets of Wisconsin, and it is essential that this market should be represented by an up-to-date paper, which can be done if the business men and merchants who derive much benefit from the tobacco business, will lend their encouragement in the way of advertising patronage.

Several of our leading firms are trading with London, Australia, Rotterdam, Amsterdam, Bremen, and in fact all the markets of the world, and it is much to the business interests of Janesville, that a good tobacco paper be maintained, and therefore, as above stated should have the hearty co-operation of every business man in the city. Negotiations are pending whereby J. Franklin Willey, the founder of the Tobacco Leaf, may resume control of the paper and once more put the paper on its feet and make it a credit to the city's trade; a consummation devoutly to be wished.

A TROUBLESOME LINE FENCE

It Has Been Before the Courts For Fifteen Years.

In Justice Richardson's court this morning the case of the town of Fulton vs. H. S. Pomeroy was called. The question at issue is over a line fence in the town of Fulton the litigation having been in the courts for the past fifteen years. At 9:30 o'clock the jury in charge of under-Sheriff Wallace Cochran drove out to the land in question for the purpose of viewing the situation. The jury is composed of John Comstock, H. W. Foyes, Robert L. Horn, Joseph L. Bear, John Spoon and E. B. McCubbin.

RECOVERING FROM WOUNDS

Joseph Bradley is Able to Be About the House.

Joseph Bradley who, it is alleged, tried to commit suicide a week ago by shooting himself in the head with a revolver, was able today to dress himself and sit at the table for his meals. He says he feels well, in spite of the fact that the bullet still remains in his head. No effort as yet has been made to remove it.

CULLOM'S VOICE IS FOR BLOODY WAR

ILLINOIS SENATOR SAYS TIME FOR ACTION HAS COME.

Spain Must Be Driven from Cuba at All Hazards—Great Britain's Squadron Goes to the Canaries—Rumors That the Powers Will Intervene on Spain's Behalf.

Washington, April 15—[Special]—The senate convened early this morning and immediately resumed consideration of the Cuban resolutions. The debate was opened by Senator Cullom, who said the hour to strike had come. He was followed by Senator Berry.

SENATOR CULLOM.

who declared that if America did not respond to the appeal recently made by Senator Proctor, Americans would be regarded as cowards and sneaks. Mr. Daniel followed Mr. Berry. He said if the word "forward" is given the tramp of armed men would not cease until our flag floated over Morro castle. Mr. Tillman was the next speaker. He declared there was going to be war unless Spain backed down with ignominy, and said all party lines would be obliterated in the cause of human liberty.

ANOTHER SPANISH APPEAL

The Government Complains to the Powers of American Misrepresentation.

Madrid, April 15—[Special]—The government has presented a memorandum to the powers. It contains an indignant denial of the imputations of the American senate that the Maine was blown up by Spanish officials.

Increasing the Army

Washington, April 15—[Special]—Secretary Alger and Gen. Miles adopted final plans for increasing the army this morning. The plans have been kept secret.

The Flying Squadron

Norfolk, Va., April 15—[Special]—At 1 o'clock the flying squadron was sighted off Cape Henry headed for Hampton Roads.

A FINE NEW STORE

The Hardware store of H. L. McNamara Opens Its Doors to the Public.

One of the handsomest hardware stores in southern Wisconsin opened its doors to public patronage yesterday afternoon. New fixtures made purposely, and new stock direct from the makers make a combination that is not equalled in the city of Janesville. No expense has been spared by the proprietor, H. L. McNamara, in making this one of the most popular trading places of the city and his wide experience in the hardware business during the past twenty-five years gives him an advantage in buying and selecting stock. The stock includes everything known to the hardware business and is up-to-date in every way. The store is located in the Armory block on West Milwaukee street and you are cordially invited to call and inspect it at any time.

THE PRESIDENT WILL SIGN THEM

WILL APPROVE ANY RESOLUTIONS CONGRESS MAY PASS

Rumors of His Intention to Veto Them Are Set at Rest—All Interference of Foreign Powers Will Be Repelled—The Naval Militia Ordered Out.

Washington, April 15—[Special]—The president, it is said, has assured members of the senate foreign affairs committee that whatever resolution meets the approval of the two houses, will receive the executive signature an hour after it reaches the White House.

LEE GIVES VALUABLE POINTERS

Information As to the Resources and Strength of Spain in Cuba.

Washington, April 15—General Lee has supplied the war and navy departments with accurate plans of the defenses of the harbor and has even located a string of torpedoes across its mouth. He has informed his superiors that the Spanish troops are badly fed, badly drilled, badly armed and badly officered. He believes that Captain Sampson's fleet could reduce the fortifications in six hours and shell the torpedoes out of the harbor inside of twenty-four hours more. Matanzas, it is said, is practically undefended, and it is believed the landing of the troops can be made there or at some point just east of Havana, for the insurgent forces are today operating within a dozen miles of the capital city of Cuba.

The Spanish have no facilities for camping out over night, and it would be possible to land federal soldiers almost any where from Bahia Honda to Matanzas. All the information brought by General Lee tends to show that the Spaniards will surrender after only a show of opposition.

A VERY PRETTY PROGRAM

It Would Be Satisfactory to Many, But Is Wholly Impossible.

Washington, April 15—[Special]—It is stated that if congress adopted the president's suggestions with regard to the Cuban question the North American Squadron will seize Havana and Spain, at the suggestion of the powers, will submit the matter to international arbitration, the United States continuing to hold the revenues of the island until damages to American property have been satisfied. Spain will default in the payment and will then cede Cuba to the United States in full satisfaction of all claims.

MEDIATION WILL BE REJECTED

Interference of Foreign Powers Will Not Be Tolerated.

Washington, April 15—[Special]—It can be authoritatively stated that if the representatives of foreign powers shall present a note offering mediation between the United States and Spain, it will be rejected. This means that the United States will not allow the powers to meddle in the affairs of this country and Spain.

FOOD FOR THE GULLS.

Rumor That the Powers Will Intervene in Spain's Behalf.

Rome, April 15—[Special]—It is said here that the powers will intervene between Spain and the United States in favor of the former country, and that all the powers will participate in a naval demonstration with that purpose in view.

BRYAN FAVORS RECOGNITION

His Influence Exerted Upon Democratic Senators With Effect.

Washington, April 15—William J. Bryan has suddenly become a power in congress and is perhaps more potent than any other member of that body in determining its policy relative to Cuba. Mr. Bryan arrived here several days

WEATHER FORECAST

Chicago, April 15 —[Special]—Forecast for Wisconsin:
Fair and warmer tonight and Saturday

ago to attend the Jefferson birthday banquet and has since been much in evidence around the capitol. Today a majority of the senate is for recognition. The democratic side of the chamber, with perhaps five or six exceptions, is ready to vote for the Turpie resolution. These are Senators Gray, Gorman, Fauquier, Caffrey, Morgan and one or two more. Eight or ten democratic senators who were yesterday opposed to recognition are now for it. They have seen Mr. Bryan and have succumbed to the appeal made by the free silver obitain to join hands with him in embarrassing the executive and republican party.

On the republican side there are seven or eight senators who say they will vote for recognition. Among them are Mr. Foraker, who is active and influential in the cause; Mr. Mason, Mr. Gallinger, Mr. Thurston and others. All the populist senators are for recognition. Mr. Teller was not for recognition yesterday, but is today. Mr. Bryan's game to help the cause of free silver under the guise of helping to free Cuba has won over even Mr. Teller, who himself prepared resolutions almost identical to those adopted by the house of representatives.

THINKS WAR IS CERTAIN.

Senator Sawyer Would Welcome It Rather Than Dishonor.

Milwaukee, April 15—Former United States Senator Philletus Sawyer was in the city yesterday, attending to business connected with the Wisconsin National bank, of which he is a director. Senator Sawyer thinks war with

HON. PHILETUS SAWYER.

Spain cannot be avoided unless Spain backs down. "There can be no backing down on the part of the United States," he said. "We are in it, and must go ahead. Anything not dishonorable would be preferable to war. War before dishonor, every time."

Takes Guns and Papers.

New York, April 15—Information that is regarded as somewhat significant has reached this city to the effect that when the Spanish warship Vizcaya left Havana she took with her from that port a number of rapid-fire guns that had been mounted on shore preparatory to repelling a possible invasion. The vessel also took away a large quantity of the private papers of the captain general and of the government archives.

No Orders from London.

Kington, Jamaica, April 15—The colonial authorities here say that until specific instructions to the contrary are received from the home government coal will not be regarded as contraband of war. There are now 2,500 tons of Welsh and American steaming coal in Jamaica ports, and it will be sold to any purchaser, American or Spanish. The British government has not yet sent special neutrality directions here.

Spain's Note to the Powers.

London, April 15—The Madrid correspondent of the Daily Mail says that "the memorandum which the cabinet has decided to send to the powers gives a resume of the report of the Spanish board of inquiry into the Maine disaster, contrasts it with the American report, and asserts that Spain's efforts to have the matter referred to an impartial commission named by the powers were frustrated by the refusal of the United States to acquiesce."

Prefer Davis Resolution.

Washington, April 15—Some of the house republicans are already organizing a movement looking to the acceptance of the senate resolutions, when they pass that body. They fear that if the resolutions go to conference concessions may be made and delay may follow. The senate resolutions, being more vigorous, please many of the radicals better than the house resolutions.

Revolt in the Philippines.

Madrid, April 15—A communication received here from the Philippine islands says that all the troops which were about embarking for Spain at the time the communication was mailed were marched hurriedly to various towns in the interior, where the rebellion against Spanish rule has been renewed. It is added that over 20,000 well-armed men are now in the field.

SPAIN IN THROES OF REVOLUTION

IF WAR IS NOT DECLARED MONARCHY WILL COLLAPSE.

Weyler Will Be at the Head of the New Government—British Fleet Ordered to the Canary Islands—Spain's War Vessels Concentrating at Cadiz.

London, April 15—[Special]—Confirmation of the report that the Spanish dynasty is in peril has been received here. Civil war will undoubtedly occur if there is not war with the United States.

It will be no surprise if Weyler seizes the reins of the government.

Grave events are expected to transpire in Madrid in the course of a few hours. Gen. Weyler is being closely shadowed by the police and it is feared he is the cause of the uprising.

NAVAL MILITIA UNDER ORDERS

Must Hold Themselves in Readiness to Man Auxiliary Cruisers

Washington, April 15—[Special]—Directions have been sent to naval militia organizations in Maryland, New York, Massachusetts, Michigan, and New Jersey to hold themselves in readiness to man the five auxiliary cruisers recently purchased.

Making New Gunboats

Norfolk, April 15—[Special]—Hundreds of workmen are converting all vessels in this harbor into gunboats. Many sailors are being enlisted.

Britain's Squadron

London, April 15—[Special]—The British squadron has anchored off the Canary Islands.

Spanish Squadron Sails

Washington, April 15—[Special]—It is reported that a large Spanish squadron has sailed from Cadiz for western waters.

Army Awaits Congress.

Washington, April 15—Gen. Miles said Thursday that up to this time no further movements of troops other than those announced some time ago had been ordered, nor had any call for volunteers been issued. The war department officials have completed preparations for any movement of troops toward a common center and for calling out the militia whenever such a step is regarded necessary. If the intervention resolution should be enacted by both houses immediately the orders to move the troops probably would be promptly issued.

THE CITY SEALER SPEAKS

Retorts Upon Those Who Ignorantly Criticize His Actions

Editor Gazette.—The article in last Sunday's Recorder reflecting upon me in the discharge of my duties as sealer of weights and measures and the honesty of business men of the city of Janesville is of such a character that I desire to say, through the columns of your paper, that the statements are not true. They are false in an extreme degree.

The statement with reference to the weight of the package is not true. As to the 500 pound coal statement, the first I ever saw or heard of it was when my attention was called to it as published in the recorder.

Now as to the business men of this city, I think I ought to know them, especially the older ones. My judgment is that more honorable and fair dealing men are not to be found anywhere. In the execution of my duties as sealer I have carefully followed the directions as outlined in the city charter. For the enlightenment of those who may not have examined the city charter with reference to the duties of sealer I copy from the revision of 1891 to which the Recorder's attention is respectfully called:

"The sealer of weights and measures shall keep the weights and measures, scales and beams owned by the city, and he shall prove and seal all scales and beams owned by the city, and he shall prove and seal all scales, beams, weights and measures presented to him for that purpose, and he shall also provide and keep a seal like unto the seal required by the law to be kept by the state treasurer, with which he shall seal all such scales, beams, weights and measures."

In other words, the sealer has no right to take the initiative in any case.

Now, fellow citizens, especially those who read the article referred to, we will imagine the Recorder and myself to be on trial, and you are impeached as a jury to determine the answers to two questions: Did the Recorder tell the truth? And did the Recorder know what the duties of a sealer were, when the criticisms were written?

Gentlemen of the jury, the case is with you. I shall be satisfied with your verdict.

SEALER.

MYVICAR-KOBER NUPTIALS

A Quiet Wedding Solemnized Last Evening.

Last evening at the home of Mr. and Mrs. Neil McVicar, No. 14 Pearl street, the marriage of their daughter, Agnes M. McVicar and James M. Kober was appropriately solemnized. The ceremony was performed by Rev. E. H. Pence, pastor of the Presbyterian church. Miss Eunice Martin, of Mineral Point, acted as bridesmaid and Neil McVicar, Jr., a brother of the bride, was best man. Only the relatives of the contracting parties witnessed the ceremony, as there has been an effort to avoid display.

The bride is a well known young lady possessed of many accomplishments and a favorite in a large circle of acquaintances. The groom is an employee of the Chicago, Milwaukee & St. Paul railroad and has many friends along the line. The couple will receive hearty congratulations. They will reside at 60 Madison street in a modest house that has just been prettily arranged for their reception.

DOGS BECOMING A NUISANCE

There Are Too Many Curs Roaming the Streets of Janesville.

Twenty-four dogs congregated at the corner of Milwaukee and Bluff streets at 7 o'clock this morning, and judging from the free-for-all that followed they must be discussing the war question. In other portions of the city they are equally as thick, and complaints are daily being made to the police on the dog question.

"Dogs are getting to be a great nuisance in this city," said a city official this morning, "and I for one am in favor of taking some action in the council on the matter of providing the town with fewer dogs."

Northwestern Depot Grounds in Process of Ornamentation.

The Chicago & Northwestern railway company will not sow grass seed on the grounds surrounding their new depot in this city. The process they believe to be too slow. Near the water works plant on South River street a gang of men have been at work during the past few days cutting the best of sod and loading it on awaiting flat cars. The richest of back dirt has been put on the depot grounds, and this sod is now being laid by experienced hands who work under the watchful eye of bosses.

The chief last evening warned several dozen riders who were violating the city ordinance in both the resident and business portion of the city. Fair warning is all that is necessary, and then arrests will follow.

CONSULTING A WOMAN.

Mrs. Pinkham's Advice Inspires Confidence and Hope.

Examination by a male physician is a hard trial to a delicately organized woman.

She puts it off as long as she dare, and is only driven to it by fear of cancer, polypus, or some dreadful ill.

Most frequently such a woman leaves a physician's office where she has undergone a critical examination with an impression, more or less, of discouragement.

This condition of the mind destroys the effect of advice; and she grows worse rather than better.

In consulting Mrs. Pinkham no hesitation need be felt, the story is told to a woman and is wholly confidential. Mrs. Pinkham's address is Lynn, Mass., she offers sick women her advice without charge.

Her intimate knowledge of women's troubles makes her letter of advice a wellspring of hope, and her wide experience and skill point the way to health.

"I suffered with ovarian trouble for seven years, and no doctor knew what was the matter with me. I had spells which would last for two days or more. I thought I would try Lydia E. Pinkham's Vegetable Compound. I have taken seven bottles of it, and am entirely cured."—Mrs. JOHN FOREMAN, 26 N. Woodberry Ave., Baltimore, Md.

TRYING TO PREVENT WAR.

Exchange of Notes Between the Great Powers.

MAY APPEAL TO THE PRESIDENT.

Important Meeting of the Ambassador and Ministers Concerned Is Held at Washington—Joint Diplomatic Note Likely to Be Presented.

Washington, April 15.—It was learned last night in high diplomatic quarters that an exchange of notes had begun between the European capitals with a view to making strong representations on the Spanish-American situation. In the same connection an informal meeting of the ambassadors and ministers in this city of the six great powers of Europe was held late in the day. Several of the foreign establishments received cable advices from their governments as to the opening of the exchange of notes. This had been anticipated in view of the prevailing sentiment in all the foreign quarters here that the action thus far taken in congress made war inevitable. This opinion had been officially reported to the several European capitals, and it was doubtless instrumental in starting the active exchange between the great powers. The same exchange occurred a week ago as a preliminary to the joint note of the great powers presented to President McKinley, mildly urging a peaceful settlement with Spain. It is understood, however, that the present movement is not of the same mild character as the former one.

Simultaneously with the opening of the exchange word came from Madrid that the Spanish government was about to issue another appeal to the great powers of Europe. It is understood that this appeal is an initiatory to the concerted action of the powers, and there is apparent agreement in advance that the appeal will receive favorable consideration. It is said that Spain's appeal will recite her grievances against the United States, stating in detail the many concessions she has made, and pointing out that it was in response to the urgent representation of the six joint powers that the last concession of an armistice was granted.

If the powers determine to act their influence probably will be particularly directed toward inducing the United States to grant Spain sufficient time within which to try the armistice recently proclaimed.

During the recent joint action of the powers their main influence was exerted at Madrid, the only action at Washington being the courteous expression of hope for peace. But the present movement contemplates that the influence shall be exerted at Washington rather than at Madrid, and it is the common belief in diplomatic quarters that the Madrid authorities have reached the limit of concessions, and should now be given adequate time to try what they and the powers have offered as a means of restoring peace in Cuba. There is no suggestion, however, that this influence at present will be of a material character, but it is expected to be an assertion of all the moral influences of the powers in checking tendencies which, it is believed, inevitably will lead to war.

Up to a late hour word had not been received at the various foreign establishments that any common basis of joint action had been reached, although it was the general impression that there would be little difficulty in arriving at this common ground in view of the prevailing sentiment abroad. It is not so certain, however, that all of the powers are ready for a step of this character. Germany has of late shown a disposition to avoid exerting strong influences on the United States. Russia is also thought to be somewhat indifferent. France and Austria are most active in the present movement, as they were in the former one. Whether all of the six great powers are ready to join in the movement is in doubt, and without this united action it is felt that the force of such influence would be lost.

The Spanish minister had not been officially advised up to a late hour that the meeting of the Spanish cortes had been advanced from April 25 to April 30. The press cables from Madrid were not doubted, however, as it was thought to be quite probable that the present grave condition of affairs would lead to the assembling of the cortes at the earliest possible date. There is no doubt that the cortes will prepare a war budget adequate to the existing condition of affairs, which budget will be akin to the \$50,000,000 defense fund recently appropriated by congress. It is understood that the Spanish war budget is not likely to be less than 250,000,000 pesetas. The address of the queen upon the opening of the cortes is looked forward to as another important feature in connection with the Spanish-American affairs, as it is definitely known that the queen regent will deal with the existing crisis.

POPE'S PLAN TO AVERT WAR.

Archbishop Ireland Said to Have Important News from Rome.

Washington, April 15.—It is stated on excellent authority that Archbishop Ireland received a cable dispatch Thursday from Cardinal Rampolla which declared that a Spanish-American crisis could be averted if the American congress could be held in check for a few days.

The plan provides that Spain be notified that a congress of the powers will

decide the pending questions. This congress will resemble that held at Berlin.

Spain will be told that she must recognize Cuban independence. It will be pointed out that a war with the United States would result in her losing Cuba and Porto Rico both and lose her standing among nations.

The Maine disaster does not enter into consideration.

Archbishop Ireland visited the French embassy after receiving the message. In company with the French ambassador he then drove to the Spanish legation. They were there for some time. From the Spanish legation they went to the Austrian legation, where they held a conference with the Austrian minister.

Several of the foreign embassies received cable messages last night, but whether relating to this matter is not known. It is not believed that all the powers are in actual sympathy with this movement.

"While in the army with the 54th and Vols. sores came on my leg from the knee down, and much of the time since that I have been able to walk only with crutches. I have tried almost every remedy which friends suggested, but never struck the right remedy until about three weeks ago, when by the advice of our druggists, Goddard & Watson, I commenced the use of "SEPTICIDE." I took it internally and kept the sores wet with it four or five times a day. I am now happy to say, that I am entirely cured, and my leg is as sound as ever. THOMAS MOLER, Chippewa Falls, Wis."

CHANGES AT BELOIT

Beloit's new common council has organized. Mayor O. F. Hardy in his message recommended the enlargement of the fire department; that measures be taken looking towards the purchase of the waterworks; in 1900; the abolishing of billiard tables in saloons; greater care on the part of the assessors in preparing descriptions of property, and that the city charter be revised to give the wards but two aldermen and allow them a fee for attending council meetings.

Belit now has fifteen aldermen, three from each ward. Two aldermen, according to Janesville's experience, can do all the work. The matter of paying the aldermen in cities of the size of Janesville and Beloit may or may not be a good plan. The general belief would be, probably, that an alderman who would not attend to his duties because of civic pride, would not be induced to do so by any fee that the city could afford to pay him.

GET AT THE CULPRIT

Uncle Sam should cultivate a closer acquaintance with Joseph Panell Gibbons, the Englishman who made the mine used in blowing up the Maize. A dispatch from London says:

"The Mail publishes, this morning, an interview with Joseph Panell Gibbons, the submarine expert, in which he ridicules the Spanish denials of his statements as to the sale by him of submarine mines to Spain, and says that he can prove that the United States warship was wilfully and deliberately blown up. What is more, according to The Mail's report, he thinks it possible to reduce the explosion to the act of two men, or even to one individual."

If the guilt of the persons responsible for the destruction of the Maine can be established, it should be done. Then there will be a hanging that will partake of the "society drama"—with the people of the civilized world as the applauding audience.

A legal post mortem is to be held in the case of the Wisconsin Board of Medical Examiners. The board refused to issue state licenses to the graduates of a Milwaukee medical college, on the ground that the college has failed to comply with the state law in compelling all its students to take courses of at least three years. One of the graduates proposes to fight the case and get a legal diagnosis more in his favor.

The Milwaukee Sentinel suggests to Congressman Sauerherring, who attacks the president, that he resign and raise a regiment. Mr. Sauerherring's aquatic name, however, suggests to The Sentinel the afterthought that perhaps his services would be of more value on the sea.

John Dunphy, who was elected mayor of Elkhorn refuses to qualify and a special election must be held. It is said, however that there are 796 other Elkhorn men who might be prevailed upon to accept the office, if sufficient pressure was brought to bear.

With an Indian band at the head of a regiment of colored troops and a company of cowboy cavalry, the Spaniards cannot but be impressed with the fact that the United States can produce any kind of fighters that may be needed.

Postal employees may enlist in the army or go to the front with the militia and not lose their positions although their salaries will not be paid in their absence. This is the postmaster general's decision.

A brass band composed of Oneida Indians, at De Pere, has offered its services to the government. Here is progress for you! The "noble red man"

furnishing the music to inspire the white man to fight!

Some of the fighting congressmen it seems, could not wait for a chance to fight Spain but fell to fighting each other on the floor of the house. No blood was spilled, however, nor are such men likely to spill any in the future.

Mayor Starkweather, of Superior, who fought the fire and police commission law tooth and nail, has acknowledged the validity of the act by appointing a commissioner under it.

Mayor-Elect Rose, of Milwaukee, in his speech at the democratic ratification meeting, urged all good citizens to support the president in the Cuban matter.

The patriotism of many of the newspapers these days seem to run largely to the sale of navy portfolios at "10 cents per copy or \$1 for the series."

Uncle Sam's pack of war dogs is steadily increasing, the latest purchase being two "ocean greyhounds"—the St. Louis and St. Paul.

At last accounts President McKinley, was still, according to the popular verdict, a bigger man than Billy Mason—with Billy dissenting.

Superstitious people shake their heads and say "but the resolution was adopted on April 13."

Bitterly Oppose Fusion.

Des Moines, Iowa, April 15.—At a meeting held in this city Thursday the state central committee for the "middle of the road" populists decided on June 2 as the day for their state convention. Des Moines, Marshalltown and Cedar Rapids have made bids for the location, and A. W. C. Weeks, chairman, was instructed to make the final decision. Their resolutions, drawn up by ex-Congressman Weller, set forth that honor demands the voters in the people's party of the state "to refuse to fuse or swap votes" on national, state and local questions. They will put a full ticket in the field, and expect to poll about 5,000 votes. For the convention they anticipate an attendance of 400. Resolutions opposing the issue of bonds to create a war fund, even by popular loan, were adopted.

The room was tastefully decorated for the occasion, and the orchestra, under the direction of Professor Buell, furnished choice musical selections for the delectation of those present.

The contest was divided into three departments—oratory, declamation, and extemporaneous speaking. Professor D. D. Wayne had full direction, and the exercises passed off smoothly. EPILEPTIC SPASM RESULTS IN DEATH

LORIN MORSE FOUND DEAD IN BED.

Supposition is That He Smothered To Death in the Bed Clothes—Has Been Subject to Spells for the Past Three Years—Was Universally Respected.

When Chester Morse, of 106 Dodge street, got out of bed at 7 o'clock this morning he noticed that his brother Lorin was lying in an adjoining bed with outstretched arms and with face downward. He called to him but received no answer. Mrs. Orville Morse then went upstairs and made the discovery that the young man was cold in death.

A Victim of Epilepsy.

The deceased was subject to epileptic fits, and the supposition is that during the night he was attacked by one of these fits, during which he buried his face in the bed clothes, which resulted in suffocation. Dr. J. W. St. John, who was called, found that the deceased had been dead several hours, and that death must have come about midnight. Chester Morse, his younger brother, sleeps but a few feet from his brother's bed, and in the same room, but during the night he heard no noise of any kind. Last evening Mr. Morse attended the exercises in the High school building.

Genial Young Man

The deceased was the son of Mr. and Mrs. Lyman Morse who conduct the restaurant at 167½ West Milwaukee street. Being of a sunny disposition he made friends without number, both at the High school where he attended till but a short time ago and at the Y. M. C. A., where he took a keen interest in all that was going on.

The deceased was twenty years of age and will be mourned by many who loved him and respected him as a companion and friend. Rev. Robert O. Denison will conduct brief services from the home, 106 Dodge street, at 9:30 tomorrow morning, and the interment will be in the cemetery at McWanago. The pall bearers will be intimate friends of the deceased as follows: Fred Palmer, Ross Bump, Roy Palmer, and Len Mathews.

THE SENATE DOES NOTHING.

Action for the Relief of Cuba
Deferred.
STRONG SPEECHES ARE MADE.

Today at 10 O'clock the Senate Again
Met to Discuss the Situation—Mr
Hoar of Massachusetts Defends the
Policy of the Administration.

Washington, April 15.—The action of the house of representatives in adopting resolutions looking to armed intervention in the Cuban rebellion transferred the center of interest and action from one wing of the great marble capitol to the other. Upon the senate, therefore, rests the responsibility for delay or action.

For more than six hours Thursday the senate had the resolution proposed by the committee on foreign relations under consideration. The speeches delivered upon the various phases of the situation disclosed no irreconcilable differences among those who spoke. All were in favor of action in some form by the government of the United States. The most radical difference was as to whether the resolutions finally adopted should recognize the independence of the Cuban republic or simply declare for armed intervention with a view to the ultimate freedom and independence of the Cuban people.

After vainly endeavoring on two occasions to agree to a time for a vote upon the resolutions and after voting down a motion to adjourn, the senate finally, amid much confusion, agreed to adjourn until 10 o'clock to-day.

Mr. Hale (Me.) upon the opening of the session presented a memorial from the National Civic club of Brooklyn, calling attention to the necessity in the event of war with Spain of repealing some of the present navigation laws. The laws, as they are at present, it said, would prevent our merchant vessels from sailing under a foreign flag, while every Spanish merchantman would be under the French flag. Our ships would therefore be preyed upon by Spanish privateers.

Mr. Penrose (Pa.) presented a telegram from Philadelphia which read as follows:

"House resolution dishwater. Davis resolution satisfactory. Remember the Maine."

A message was received from the house transmitting to the senate the Cuban resolution passed by the house.

By unanimous consent, at the request of Mr. Davis, chairman of the foreign relations committee, the resolution reported by the foreign relations committee was laid before the senate.

Mr. Turner (Wash.) sharply criticized the administration for the "vacillating and irresolute, cowardly and pusillanimous policy pursued by it in the Cuban question. He declared himself strongly in favor of the resolution presented by the minority of the committee on foreign relations.

Mr. Turner maintained that congress could not delegate to the president the power to make war. "The congress of the United States is the organized conscience of the country," said he, "and it is the only power which can take the dread step of war."

After vehemently attacking the president for the delays which had occurred in the sending of his message to congress, Mr. Turner charged that the delay last week was not due to the request of Gen. Lee, but to the fact that Archbishop Ireland had cabled to the vatican in the hope that the holy father might be able to bring about a peaceful solution of the difficulty. The president was waiting upon the pope for action to secure that which American diplomacy had failed to obtain.

Mr. Hoar said he was for peace if peace could be had. He argued that the report of cruelty and oppression in the island of Cuba undoubtedly warranted some measures that would bring peace, but he doubted the wisdom of rushing headlong into war until every other diplomatic effort had been made to effect an honorable cessation of hostilities. He said he was born in a cold latitude, and consequently might look upon things in a somewhat different light, and then, with hand raised and amid a profound stillness in the senate chamber, he made this significant remark: "If this country is to do a great act of international justice, let us do it calmly and deliberately."

Senator Hoar argued that the attacks upon the president were ill-advised and most ill-timed; that instead of condemnation of the policy of the executive the country and the congress should commend the president in his efforts making for peace, so long as peace could be had with honor. Then, passing away from that proposition, after paying a tribute to the president, the senator said that the men who suffered by modern wars were not the men who provoked them, and that the men who reaped the benefits from wars were a few officers and the stock jobbers. He said that war meant the addition of untold millions to the public debt of the country, the piling up of pensions mountain high and would bring woe and desolation to thousands of homes.

Mr. Hoar said that the name of McKinley would be linked with the names of men whose actions of notable self-restraint had characterized the American people in other momentous hours. "Have we forgotten," said he "that the same kind of oburgation and contumely was hurled at the head of Washington when he held back the people from another war with England?"

He then rapidly reviewed a great many international cases, with citations from international law to show

COLD CURE

that the recognition of the present government of Cuba would be inimical to the best interests of the United States and would not have the support of civilized nations.

The insurgents, he did not think were without fault. Long before Spain had put into effect the reconcentrado order they had applied the torch to or otherwise destroyed everything that stood in their way, from crops to towns.

Mr. Hoar said he believed the United States was warranted entirely by international law in putting an end to the horrors that existed at our very doors. He agreed, further, he said, with the president of the United States, who had declared that it was impossible for Spain to maintain a proper and stable government upon the island. The continuance of the Spanish flag over Cuba could not longer be tolerated.

Mr. Hoar declared his belief that the destruction of the ship Maine was a meditated act, for which Spanish officials were probably responsible. "With that view," said Mr. Hoar, "the Spanish government is responsible for that loss, and it ought to be held responsible by the United States."

Mr. Turpie (Ind.), member of the foreign relations committee, said he did not see how we could intervene with arms in Cuba without making the recognition of the Cuban republic paramount to every other consideration. He said he looked upon Cuban nationality as the one desideratum, because nationality dealt with debt. He then discussed the Spanish bond question very extensively, finding in the president's message some suggestions as to international obligations, which he construed to mean Spanish bonds. He recited how Gomez had refused to accept the offer of the syndicate to purchase the island of Cuba, or allow the United States to guarantee the payment of any indemnity to Spain for the withdrawal of the Spanish flag from the island.

Speaking of the right to recognize the present Cuban republic, Senator Turpie said: "We recognized the government of Texas when it had only 800 men under arms and when it had only 30,000 population. We recognized the government of Hawaii twenty-four hours after the flag had been raised over the capitol building at Honolulu, but in the case of Cuba we refuse to recognize a republic which has back of it upward of a million people who have pledged their lives, their fortunes and their sacred honor to maintain it."

Mr. Fairbanks (rep. Ind.) advocated immediate intervention.

Upon the conclusion of Senator Fairbanks' speech Senator Cullom (Ill.) was recognized, and had hardly spoken a dozen words before interruption came from several members looking to an adjournment.

The house resolution relative to the Cuban situation was reported to the senate, and on motion of Mr. Davis was laid on the table.

Senator Davis, chairman of the foreign relations committee, made motion to adjourn until 10 o'clock to-day, whereupon, the yeas and nays being called, by a vote of 32 to 23 the senate at 6:15 p. m. adjourned until 10 o'clock this morning.

Bill for Currency Reform.

Washington, April 15.—The house committee on banking and currency now has under consideration the currency reform bill drafted by a subcommittee consisting of Messrs. Prince of Illinois, McCleary of Minnesota, and Mitchell of New York and it is thought that the republican members of that committee will endorse the measure to the extent of reporting it to the house. Pressure is being brought upon the committee to secure a report by the interests represented at the two Indianapolis conventions. They desire some sign to indicate that a step forward is to be taken by the majority, even though it did not extend beyond a general debate.

Labor Men Dissatisfied.

Chicago, April 15.—The call of the members of western trade unions dissatisfied with the management of the American Federation of Labor for a convention which is to meet in Salt Lake City May 10 for the purpose of forming a western federation has reached this city. The call includes seven western states and sets forth that the American Federation of Labor has ignored the west, while it made "fat berths" for leaders in the east.
